□ **Dan Crary**, who celebrated 40 years as a professional guitarist in 2000, is one of the originators of the flat-picking style of acoustic guitar and is recognized worldwide for his artistry and originality. Mr. Crary has played in over 30 countries, made more than a dozen celebrated recordings, and collaborated with many leading traditional musicians of the late 20th century. *To hear him live is to hear guitar music of unsurpassed beauty, power, and originality.*

□ Among those attending a **Gambetta & Crary** concert are always a few professional guitarists who have rearranged their own performances to be there. Other audience members, who have come to their first guitar concert ever, tell us they have become "converted" fans of the steel-string guitar. In fact, it was due to audience response that a planned single tour in 1990 became an annual series of European tours with many return engagements. Additionally, **Gambetta & Crary** now make frequent personal appearances throughout the year in North America, the British Isles, Europe, and, recently, Australia. Their first collaboration on CD, *Synergia* (2001), was recorded live during their January 2000 international tour.

□ Together, **Gambetta & Crary** create a virtuoso evening of guitar music and songs that is rich in musical surprises and intense emotional power. *Their cross-cultural show is peppered with Italian/American seasonings that are spicy, funny, and entertaining.*
